But There Is 82 Per Cent. of Humidity in the Air.

That Makes People Believe the Day Is Warmer than Ever.

The Weather Prophet May Trot Out a Little Shower To-Night.

It is cooler to-day than it was yes-If any sweltering New Yorker desires

to dispute this statement he is respectfully referred to Local Forecaster Elias B. Dunn, who gave it out in his lefty years ago. eyrle on top of the Equitable Building this morning.

that equally cool announcement, but feeble as he.
he went so far as to declare that his Six weeks a

expression, and with another perspiration annihilator mopped the overheated portice of his thought factory.

Perceiving that an "Evening World" reporter had his doubts about to-day's increased frigidity, the Prophet hastened to admit that, while it was actually cooler, probably few New Yorkers would believe it because of the great abundance of humidity afloat in the atmosphere.

According to Mr. Dunn, there was 82 per cent, of humidity in evidence to-day, against 73 per cent, vesterday, hence the belief of the majority of metropolitans that Manhattan Island was one vast oven, and that nowhere in the universe did cooling breezes exist except in Chicago.

Thus belief was strengthened by the

This belief was strengthened by the morning report from the World's Fair city that the temperature was only 6. This approached the coolest spot in the Union—Cheyenne, Wyo, where it was only 54, while New York's record came within 9 degrees of the hottest places, Galveston and Key West, where the mercury floated at 84.

Buston's temperature was 78. St. ident Tappen is convinced that the im-louw's 74. Albany's 70. New Orleans's provement of the Van Cortlandt Park and Philadelphia's and Washington's military parade ground can be made But Mr. Dunn held out some inducements for New Yorkers to keep on existing after all. While it was generally fair all over the country and would continue so, he said that in the last twenty-four hours there had been showers in the Southwest, with scattering rainfalls over the Middle Atlantic and New England States, and that it was not at all improbable that New York would be visited with a light shower this evening.

He also predicted that to-night and tomorrow would be cooler.

The increased humidity to-day promised a greater number of prostrations. Only three were reported yesterday by the police, although the heat was more that it may be done. The bilds for the new wing to the American Museum of Natural History, to cost \$257,000, has been signed.

He also predicted that to-night and to-morrow would be cooler.

The increased humidity to-day promised a greater number of prostrations.
Only three were reported yesterday by the police, although the heat was more increase. Humidity, however, is much more productive of prostrations than heat.

more productive of prostrations than heat.

New Yorkers were illy prepared to withstant an increase in hundity today, too, after experiencing another hot, and in most instances, sleepless night. While it was cooler than Sunday night by a degree or two, there was little call for extra bed clothing.

Perry's thermometer started in at 6 P. M. with 83 degrees. At 9 o'clock the mercury dropped to 76, at midnight to 74 and at 3 o'clock this morning to 72.

There it remained until 6 o'clock, when it began to climb upward again, At 9 o'clock it had jumped up to 78, and at 10.39 reached 81 1-2. Still, Forecaster Dunn said there was little prospect of any records being broken, either of heat or humidity, oppressive as the latter was.

PROSTRATIONS

PROSTRATIONS. PROSTRATIONS.

Harry Williams, thirty-six years old, a laborer, of \$3 West Fifteenth street.

MATINEE TO-DAY.

Returned for the Addition of the Arrears. The fifteen days during which the tax books

added.

The Aldermen meet on Aug. 22 to receive
the report of the Finance Committee fixing
the tax rate. The report will lie over for one
week. After the report is adopted the Clerk of the Board of Aldermen issues his warrant certifying to the tax rate, and the Tax Receiver will then begin the collection of taxes.

Williams Refused to Go to the Hos-

fit this morning in city Heil Park. After the per oxysim was past, a policeman asked the man whether he would like to go to the hos-pital. He signified his assent and a call was man whether he would like to go to the hos-pital. He signified his assent and a call was sent to the trambers street Hospital. On the arrival of the ambalance, however, Williams refused to go, and walked away. He told an "Evening world" reporter that he was suffering from hears disease and had been six mouths under treatment at Hellerus Hospital, and sid not want to go back to hos-pital it he could avoid it.
